

Dear Parent/Guardian,

As we come to the close of this school year, I want to remind you that your student has medication in the school clinic. This medication will need to be picked up by you, or a designated adult by the last full instructional day of school, May 24, 2022. **Medication may not be sent home with students**. Any medication not picked up by May 24, 2022 will be destroyed immediately following dismissal.

If your student is attending the Summer Scholars program in June, I will be in contact regarding your student's medication.

I have enclosed Individualized Health Plans/Medication Administration Forms for next school year. Whether your child is returning to the same school, or transferring to another school in Sumner County, these forms must be completed by you and your student's physician. The completed forms with any medication must be brought to school by you or a designated adult at the beginning of the school year.

I sincerely hope that having these forms prior to the start of the 2022-23 school year will assist in maintaining your student's health.

I wish you and your family a safe and healthy Summer!

Kind Regards,

School Nurse
