Dear Principal,

Homework Hotline is pleased to provide **FREE** one-on-one tutoring and homework assistance to students in your school. Hotline's **CERTIFIED teachers** and trained student scholars will ensure that your students and parents have access to the quality support they need throughout the 2018-2019 school year.

**Please distribute the enclosed items to ALL of your students, and let students and parents know about this free service.**

Hotline has provided more than 530,000 free tutoring sessions since 1990. Students may contact our teachers by phone at **615-298-6636** or chat with a teacher online at [homeworkhotline.info](http://homeworkhotline.info) Mondays through Thursdays from 4pm-8pm CST/5pm-9pm EST. **Hotline teachers are ready to talk or chat with your students today!**

Whether students call to simply check their history homework or need extended support while solving other difficult problems, we are here to guide them along the way. Additionally, if your school ever wants to know the number of students who have called, their grades, or the subjects with which they needed the most help, we are happy to share that data with you. Thanks for spreading the word about Homework Hotline. Let's have a great school year!

Kindly,

Rebekah Vance  
Executive Director  
Homework Hotline
